LETTER OF AGREEMENT

SUBJECT: Announcement for study volunteers

TO WHOM IT MAY CONCERN

The Fort Meade Public Affairs office uses our weekly newspaper, our website and several social media outlets to communicate news and information to the service members, employees, family members and community groups both on and off the installation.

We understand the Asymmetric Warfare Group and Lt. Col. Morgan Southern, on behalf of U.S. Army Training and Doctrine Command are considering working with Johns Hopkins University Applied Physics Laboratory on a study that will require the participation of service members on a volunteer basis.

Once TRADOC has approved participation in the study, and once we are assured that the announcement meets required public affairs guidelines according to Army Regulation 360-1, the Fort Meade public affairs office will use our various media outlets to announce the study and a call for volunteers to participate in the study. Any announcement we make must direct volunteers to contact those conducting the study directly. This office will not respond to questions or requests for details on any aspects of the study.

Respectfully,

A handwritten signature in black ink, appearing to read "Chad T. Jones".

CHAD T. JONES
