

About Pearson VUE

Pearson VUE delivers over 4 million high-stakes exams a year for clients in the licensure, certification, academic admissions, regulatory and government testing service markets. It boasts the world's leading test center network, with over 5,000 testing centers, 230 of which are fully owned and operated Pearson Professional Centers. These centers utilize a patent-winning design, which was created specifically for high-stakes testing and offers a carefully controlled, consistent testing environment.

Pearson VUE was founded as Virtual University Enterprises (VUE) in 1994. The company was acquired by National Computer Systems (NCS) in 1997, which in turn was acquired by Pearson plc in 2000. In 2006 Promissor, the leading provider of licensing examinations for state and federal regulatory bodies in the United States, was acquired by Pearson and is now part of the Pearson VUE business.

Why Test with Pearson VUE?

Using the speed and reliability of the Internet, the most advanced technology and our commitment to unparalleled service, Pearson VUE provides Fort Meade Education Center with the tools and flexibility to meet your testing needs.

- Pearson VUE uses the Internet for secure data transmission to and from the test center
- Easy and convenient real-time registration and rescheduling of exams
- Your test is downloaded and ready when you are, *over 99% of the time*
- Results are promptly and accurately provided to the sponsoring organization, then merged into their test database, regardless of who you began testing with
- Real-time connection with the Pearson VUE hub via the Internet for all services
- Tamper-proof web Digital Embosser that protects your certification
- Extensive use of Java in the registration and testing site management applications

Exams taken at a Pearson VUE test center are the same exams, for the same price, as those with any other test provider. The difference is in the great service you'll experience before and after you take the exam.

Please visit www.pearsonvue.com for a complete listing of testing programs and toll-free call centers.

TESTNOW!™ Same-Day Testing Service

Pearson VUE offers a fast and easy TESTNOW!™ same-day testing service, available only at Pearson VUE® Authorized Test Centers. If you'd like to test today, call us at 301-677-6424 and ask if there is a seat available. If there is, it will take us just minutes to schedule and download your test. Once you've completed the test, the results will be quickly and accurately uploaded and merged with the sponsor's test history data. Pearson VUE test centers and sponsors enjoy a real-time connection via the Internet to the Pearson VUE hub for all services, so data transfer is fast, reliable and secure.

Schedule Your Test

There are three easy ways to register for your exam.

- Call us at 301-677-6424.
- Register online at www.pearsonvue.com.
- Call a Pearson VUE call center agent. Visit www.pearsonvue.com/contact/vuephone/ for a complete listing of Pearson VUE call centers.

Even if you began testing with another testing vendor, you can finish your certification with Pearson VUE. Every exam you take with Pearson VUE is quickly and accurately merged with the sponsor's test history data. For complete information on rescheduling or canceling an exam, please visit www.pearsonvue.com/faqs.

Why Should You Get IT Certified?

Numerous recent studies and surveys show that IT certification...

...demonstrates your expertise and gets you the recognition your skills deserve. It is tangible evidence that you not only have the know-how to provide top-notch support to your employer, but are committed to a life-long, continuous learning process.

...proves you are proficient on the latest technology. Undergoing IT training and becoming certificated means you have a comprehensive understanding of the most recent technology and can apply it to the current business need.

...often means you have the best access to technical support. Test sponsors such as Microsoft, Novell and Check Point offer their certified professionals exclusive access to amenities such as discounts on products and services, entry into protected knowledge bases, troubleshooting information and online technical support.

...contributes to customer satisfaction. Using certified professionals for installation, repair and maintenance demonstrates a higher level of concern and care for the customer. Customers can be confident that work will be performed at optimum efficiency, which results in the best cost effectiveness.

...can mean higher salaries and better job offers. Many IT professionals report that after becoming IT certified they were offered more lucrative and more challenging jobs.

Why delay? Become IT certified and find out what it can do for you.
