Motorcycle Safety: Rider's Responsibility

† Commander's Column - Avoid motorcycle mayhem

It's officially riding season, and motorcyclists are out in full force enjoying the summer weather.

Remember that sharing is caring, and nowhere is that more true than on our highways and community streets.

The best way for us, as a community, to reduce the likelihood of automobile-motorcycle accidents is for both parties to pay attention.

Recent statistics show that nearly two-thirds of automobile-motorcycle accidents are caused by drivers of automobiles, most often during the daylight hours at intersections.

Motorists must get into the habit of looking for motorcycles as they drive. They must not follow too closely behind a motorcycle in case traffic suddenly slows or the rider needs to maneuver the motorcycle to avoid road hazards or other dangerous traffic
